- 1) The amendment of 8/12/04 has been entered. Claims 2-19 and 21 are pending.
- 2) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lisa Haile on 9/29/04.

The claims have been amended as follows:

In claim 2, line 9, deleted "about."

In claim 18, line 8, deleted "about."

In claim 21, line 1, changed "18" to -- 19 --.

The changes in claims 1 and 18 render these consistent with the specification at page 11. The change in claim 21 provides for proper antecedent basis for "the mutation."

- 3) The following is an examiner's statement of reasons for allowance: The sample dilution values inserted into claims 2 and 18 overcome the prior art if record. It is noted that Dahlback (WO 94/17415) teaches away from diluting the sample less than 10%, and that where he suggests lower than 10% he gives no specific values. See page 19, lines 5-10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
